

Business Directories for Specific Industry

Attention professional company owners: Take a few moments to have your company listed in Center Internet Directory. |

Here is what you get with a listing on our site:

Basic business listing module, which includes

- ✎ Your Business Name
- ✎ Address
- ✎ Telephone Number
- ✎ Fax Number
- ✎ A Link To Your Web Site

Basic Listing to Module Plus

Additional Features

Your listing has its own page. This is unlike most other business directories. There are no other competing businesses shown on your page.

Your listing can be categorized by several cities. Easier for your potential customers to find you in all of the areas your business serves.

You can expand your basic listing by adding more modules. These modules can provide additional information about your business. A module can include pictures and videos.

Add as many modules as you want. There are no limits to the number of modules you can have on your page. Use our easy to use online wysiwyg html editor to create your modules. Or if you prefer, you can use your favorite desktop application and simply copy/paste the code.

Modules can be easily re-arranged.

Modules can be archived. You can create a seasonal or special events modules. Instead of deleting the module when the season or event is over, archive it to use again in the future.

You can easily edit any module. Any time and as often as needed.

And you can't beat the price. You get all of these features absolutely free. Your basic listing module will only take a few minutes to complete and be live on the internet. **Signup Now.**
